February 2, 2006

Vision Grafix Private Limited has been doing digitization work for our library for the last three years. At present they are digitizing our microfilm collection of newspapers, and the work is quite satisfactory. Regarding the schedule, they are very prompt and follow our timetable as specified. We do not have any trouble with the flow of work. We find them very understanding and responsive to our needs.

I am happy to recommend them for any serious and responsible digitization work.

Thank you.

A handwritten signature in black ink that reads 'Sabin Roy'.
